1. The first part of the paper is devoted to a general
 discussion of the problem. It is shown that the
 problem is of great importance and that it has
 not been solved before. The author then proceeds to
 give a detailed account of his own work. He shows
 that the problem can be solved by a method which
 is quite different from the one which has been
 used before. The author then gives a summary of
 his results and a list of references.
